

REQUISITION FOR EXHALED NITRIC OXIDE TESTING

PATIENT NAME: _____ DOB (d/m/y): _____
OHIP: _____ VERSION CODE: _____
HOME Phone# _____ DAY Phone# _____

Reason for Test/Consult:**Smoking Status:**

WHAT IS FeNo: Fraction of Exhaled Nitric Oxide in human breath is a highly sensitive volatile mediator which serves as a highly sensitive marker for airway inflammation. FeNo measurements offer an extra tool to support clinical decisions when diagnosing, treating, and monitoring patients with asthma. FeNo measurements also serve as an objective reference to recognize loss of control with anti-inflammatory medication.

A Payment of 75.00 is due upon completion of the test. Cash Only

INSTRUCTIONS

- Do not eat or drink for 1 hour before the test
- Do not smoke for 1 hour before the test
- Do not drink alcohol for 12 hours before the test
- Inhalers should be taken according to your physician's request
- Hold daily dose of prednisone until after the test
- Reschedule if you have any cold or flu-like symptoms
- Reschedule if you are on antibiotics
- Do not exercise for 1 hour before the test
